- Mumbai, India

SKILLS

AI Agents & Automation: Hermes Agent, Claude, Cursor, Google Antigravity, MCP connectors, agentic coding, AI research agents, prompt & context engineering

Languages: JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend: React 19, Next.js (App Router), Tailwind CSS v4, Vite, three.js

Backend & Data: Node.js, Express.js, Supabase (Auth, Postgres, Storage), REST APIs, MongoDB, MySQL

Cloud & Tools: Cloudflare, Vercel, Render, Netlify, Git/GitHub, Vitest, Postman, Ubuntu

Concepts: System Design, RBAC & JWT Auth, Caching, Rate Limiting, Web Performance, Accessibility (WCAG), SEO

EDUCATION

B.E. Computer Science

RKDF University
Graduated 2024

Diploma in Computer Science

M.H. Saboo Siddik Polytechnic
Graduated 2019

CERTIFICATIONS

- Hackathon ERR_404: Top 10% (2021)
- MySQL Certification (2023)
- C Programming (2022)
- Python with Data Science (2019)
- Cybersecurity & Ethical Hacking National Workshop (2018)

PROFILE

AI-native full-stack engineer who ships production software and automates business operations with AI agents. As founding engineer at FE Global Education, took the platform from zero to production: a Next.js website, a multi-role B2B Partner Portal (React + Supabase) and agent-driven partner outreach. Daily AI stack: Hermes Agent, Claude with MCP connectors, Cursor and Google Antigravity. Owns architecture, security and deployment end-to-end.

EXPERIENCE

FE Global Education | Study Abroad Counselling

Mumbai, India

Founding Software Engineer

Nov 2024 - Present

Live: feglobaleducation.com | portal.feglobaleducation.com | greenrevolutionservices.com

- Partner Portal (demo on request):** Architected and shipped portal.feglobaleducation.com, the company's B2B partner platform and CRM (React, Supabase Auth/Postgres/Storage, Tailwind CSS), with role-based access for admins, counsellors, partner agents and students.
- Built the enquiry-to-enrolment pipeline: a multi-step application wizard with drafts, signed-URL uploads for 10 document types, review queue, status history and agent lead CRM.
- Wrote JWT-secured serverless APIs on Cloudflare for agent-login provisioning and event notifications; admins onboard agencies, assign counsellors and route leads to partners.
- AI agent operations:** Run a self-hosted Hermes Agent (Nous Research) for autonomous, memory-backed automation, plus Claude with MCP connectors (Gmail, Google Drive, Apollo.io) for partner research and outreach.
- Used AI research agents to build a 1,150+ university partner database across 113 countries, and a Google Apps Script + Gmail campaign engine (throttling, test mode, delivery tracking) for outreach to ~500 universities.
- Web platform:** Built feglobaleducation.com (Next.js App Router, Tailwind CSS) with 15 destination guides, a course finder and JSON-LD SEO, plus greenrevolutionservices.com; hosting, DNS and SSL on Cloudflare.
- Agentic development:** Shipped all three products with an agent-first workflow (Cursor, Antigravity, Claude + MCP) for faster iteration without compromising code quality.

PROJECTS

PlayerIndex ↗ | f-player-profile.vercel.app | React 19, Tailwind v4, Node.js, Express

- Football analytics on the Transfermarkt API with instant accent-insensitive search; Express gateway with stale-while-revalidate caching, request coalescing and rate limiting.

E-Commerce Storefront ↗ | ecommerce-ts-react.vercel.app | React 19, TypeScript, three.js

- Product listing, cart and checkout with optimistic updates and a WebGL hero on an Express REST API; Vitest unit tests, React Router 7 and a Sharp image-optimisation pipeline.

LUMINA Celebrity Search ↗ | celeb-details.vercel.app | React, three.js, GLSL

- Real-time search with debounced, AbortController-cancelled requests and skeleton states, inside a custom GLSL WebGL scene (8,000-particle galaxy) that reacts to API activity.

Sumaiya Engineering Industries ↗ | sumaiyaengineering.vercel.app | Freelance, React

- Client build for a Navi Mumbai precision-fabrication firm, owned from requirements and design to SEO and deployment, plus an authenticated React admin dashboard.
